Dear Ms Newman/Flournoy

Please find attached an Environmental Investigation & Health Impact Assessment that was performed at the Bridgeton Sanitary Landfill

This project was conducted out of Laidlaw's concern for potential exposure to employees at the facility. The study solely focused on the impact from activities our employees conduct at the landfill. The Westlake Landfill PRP group did not participate in this project. The PRP group has not seen an advance copy of this report.

Please direct any comments or questions directly to me at 905 336 1865 Ext 495. I would be happy to meet with you to discuss any details of the report that you would like clarified.

Sincerely

Doug Borro
Manager, Facility Remediation
